Day Surgery Centers Inspection Checklist- Random

Name of the Facility:			
Date of Inspection:	/	/	

Ref.	Description	Yes	No	N/A	Remarks
5	STANDARD ONE: REGISTRATION AND LICENSU	RE PROCE	DURES		
	All Day Surgical Centres (DSC) are mandated to be				
5.6.	accredited within two (2) years of licensure and to				
5.6.	upload their accreditation certificate to the				
	facility's Sheryan account.				
	There should be an allocated medical waste				
a.	storage and collection area that is well ventilated				
	and secured from public and patient access.				
	The medical waste storage and collection area shall				
b.	be adequately labelled with a hazard sign to				
D.	prevent unexpected entry from patients or the				
	public.				
	The health facility should ensure it has in place				
	adequate lighting and utilities, including				
5.11.	temperature controls, water taps, medical gases,				
	sinks and drains, lighting, electrical outlets and				
	communications.				
	The health facility shall maintain documented				
5.12.	evidence of treatment protocols and care pathway				
5.12.	for surgical procedures to include, but not be				
	limited to the following:				
5.12.3.	Clinical laboratory services and diagnostics.				
E 13.4	Pre-op assessment and patient acuity				
5.12.4.	classification.

5.12.7.	Surgical Safety Checklist for Surgical Procedures.			
5.12.8.	Patient Monitoring, Recovery and Discharge.			
5.12.10.	Patient complaints			
	All DSC must have a written agreement for patient			
	referral and emergency transfer to a nearby			
	hospital setting. The transfer agreement shall			
5.13.	detail the transfer plan/protocol of patients and			
	meet Dubai transfer timeframes for emergency			
	patients as per DHA Policy for Patient Referral and			
	Inter-facility Transfer.			
6	STANDARD TWO: HEALTH FACILITY REQUIREM	ENTS		
6.2.	DSC operational requirements include the			
0.2.	following:			
6.2.1.	Day surgical centres shall not operate or open			
0.2.1.	between 12:00am and 6:00am.			
6.2.2.	Surgeries in DSC Class CM and Class C, requiring			
0.2.2.	general anaesthesia shall not start after 5:00pm.			
6.2.3.	Surgeries in DSC CM under deep sedation shall not			
0.2.3.	exceed two (2) hours.			
	Surgeries in DSC C under deep sedation and or			
6.2.4.	general anaesthesia shall not exceed three (3)			
	hours.			
6.2.5.	Multiple surgeries in different sites that exceed			
0.2.3.	three (3) hours are not permitted.			
	Day Surgical Services shall be Consultant or			
6.3.	Specialist Led services with a minimum of ten (10)			
0.5.	years' experience in one of the main surgical			
	specialties within the scope of the DSC.			
6.6.	HRS must be informed and approve changes to			
5.5.	existing or new services or staffing levels.			
6.8.	DSC should have a contract with the following			
3.3.	types of healthcare facilities:

	A nearby hospital for: referral of urgent and		
	emergency cases, ward and ICU Admissions (if		
6.8.1.	required), Assessment and follow up with		
	professionals, specialties and services not available		
	or not within the scope of the DSC.		
6.9.	The health facility design shall provide assurance		
0.9.	of patients and staff safety.		
	DSC healthcare professionals (physicians, nurses,		
6.10.	and allied health) shall be trained to operate the		
	medical equipment assigned to them.		
6.10.1.	Training shall be documented and kept up to date.		
	The Health Facility shall put in place annual		
6.12.	simulation scenarios with all surgical teams to		
	manage patient recovery and transfer.		
6.12.1.	Simulation outcome and improvement plans shall		
6.12.1.	be documented.		
	All DSC facilities are required to have an Operating		
6.13.	Theatre (OT) equipped to manage permitted		
	surgeries.		
	Class B Day Surgical Centres will have sufficient		
6.14.	medical equipment to manage permitted		
	endoscopic procedures:		
	Procedural sedation shall be performed in		
6.14.1.	designated areas where the patient can be		
	resuscitated if sedation is deeper than intended.		
	Practitioners should be ACLS certified and possess		
6.14.2.	the skills necessary to resuscitate or rescue a		
0.14.2.	patient whose level of sedation is deeper than		
	initially intended.		
	Class A and B (without endoscopy) do not require	 	
6.15.	a ventilator and will have the required medical		
	equipment to manage permitted surgeries:

	When moderate sedation is targeted, the		
	healthcare professional is assigned responsibility		
9.5.	for patient monitoring and may perform brief		
	interruptible tasks.		
	Monitoring includes an electronic assessment of		
	blood pressure, respiratory rate, heart rate and		
9.5.1.	pulse oximetry combined with visual monitoring of		
	the patient's level of consciousness and		
	discomfort.		
	When deep sedation or general anaesthesia is		
	targeted, the anaesthetist is responsible for		
0.6.2	patient monitoring must be dedicated solely to		
9.6.2.	that task and be readily available to take the		
	necessary action to ensure patient safety during		
	the procedure.		
9.7.	The DSC shall put in place procedures to rescue		
9.7.	patients who are sedated deeper than intended.		
	Documentation of the clinical assessments and		
9.8.	monitoring data during sedation and recovery and		
	discharge is required to include:		
9.8.1.	Time, date, physician name, patient condition and		
9.6.1.	action taken.		
	Food consumption appropriate for the patient and		
9.8.2.	consistent with the patient's condition, and clinical		
	care shall be provided.		
9.8.3.	Ability to pass urine following surgery.		
0.07	Patient-level of consciousness and ability to put on		
9.8.4.	clothing without assistance.		
0.10	Considerations for discharge preparation shall		
9.10.	include but not be limited to:		
9.10.1.	Risk assessment and process for discharge.		
9.10.2.	Medication needed from the pharmacy.
