Acknowledgment

Dubai Health Authority (DHA) is pleased to present the Dental Implantology Privilege, which represents a milestone towards fulfilling the DHA strategic objective to “Ensure continuous development of medical and administrative professionals and attract the highly qualified”.

This document will enable the Health Regulation Department (HRD) to ensure safe and competent delivery of dental implantology services.

This document is developed by the HRD in collaboration with Subject Matter Experts (SMEs) whose contributions have been invaluable. HRD would like to acknowledge these healthcare professionals and to thank them for their dedication to quality in dental care and their commitment in undertaking such a complex task.

**Health Regulation Department
Dubai Health Authority**

I. Scope

This document applies to all licensed general dentists and specific dental specialists opting to provide dental implant services in the Emirate of Dubai. This document does not attempt to make available information related to the clinical steps necessary in performing dental implant services.

II. Purpose

This document defines the requirements that must be satisfied by appropriately qualified, trained and skilled general dentists and dental specialists opting to practice implant dentistry and defines the categories of dentists licensed by DHA eligible for attain this privileges.

III. Definitions

Dental Implantology is the branch of dental practice pertaining to the restoration and maintenance of oral function, appearance and health of the patient through the replacement of teeth and contiguous structures with endosseous dental implants and associated prosthetic components.

Dental Implant is a cylindrical and/ or tapered post, usually made of titanium that serves as a substitute for the tooth root and provides a strong and sturdy foundation for one or more replacement teeth.

Privilege is the approval endowed to licensed healthcare professionals by DHA to practice certain procedures based on additional qualification or training.
