Investment and PPP department

The Investments and PPP's department is one of the 15 strategic programs of DHA with a focus to promote, facilitate and encourage investments

INVESTMENT & PARTNERSHIPS

Promotes competitiveness and encourages foreign and domestic investments in the health sector in Dubai

1

Enhance competitiveness of the health sector in Dubai through enabling legislation, certificate of need policies and publish health investment guide for investors

2

Increase awareness of the economic viability of Dubai's health sector **and attract FDI and local investments**

3

Develop the need apparatus **to provide a sustainable public-private investment model to enable and facilitate future investment activity** within Dubai's health sector

4

Facilitate and encourage investments to **address current gaps and future opportunities** within the health sector that align with DHA Strategy 2016-2021 priorities

Published in 2018, DHA's Investment Strategy 2017-2020 focused on the following initiatives:

The **Dubai Health Investment Guide 2018** has been developed as **part of DHA Strategy 2016-2021** and its Investment and PPP's initiative. It aims at fulfilling the following key objectives:

Inform potential healthcare investors and operators about the attractiveness of the Dubai market

Educate investors about the current investment ecosystem in Dubai, and the governance and regulatory framework

Align investment priorities with clinical capacity plan results

Promote healthcare investment in Dubai to attract the right investments in Dubai's healthcare sector

6 Key Initiatives are under implementation between 2017-2020 based on our strategic objectives

Focus of 2017-18

Health Investment guidelines

- Develop investment guidelines (targeting disciplines in new areas, investment modes, etc.) and align investment priorities with clinical capacity plan results and ensure that capacity gaps are addressed

Inward Investment Governance

- Governance and Collaboration Framework to determine how the Investment Dept. works with key public and private sector partners (including the role of FDI in Dubai)

Commercial Incentives & Policies

- Commercial incentives for private healthcare and business development policies to attract more investments in the healthcare sector in Dubai

Focus of 2019-20

Investment Promotion & PPP Facilitation

- Investment Promotion and facilitation for priority gaps
- Oversee and steer business case analysis for PPP projects and procurement of PPP Agreements

Healthcare Certificate of Need

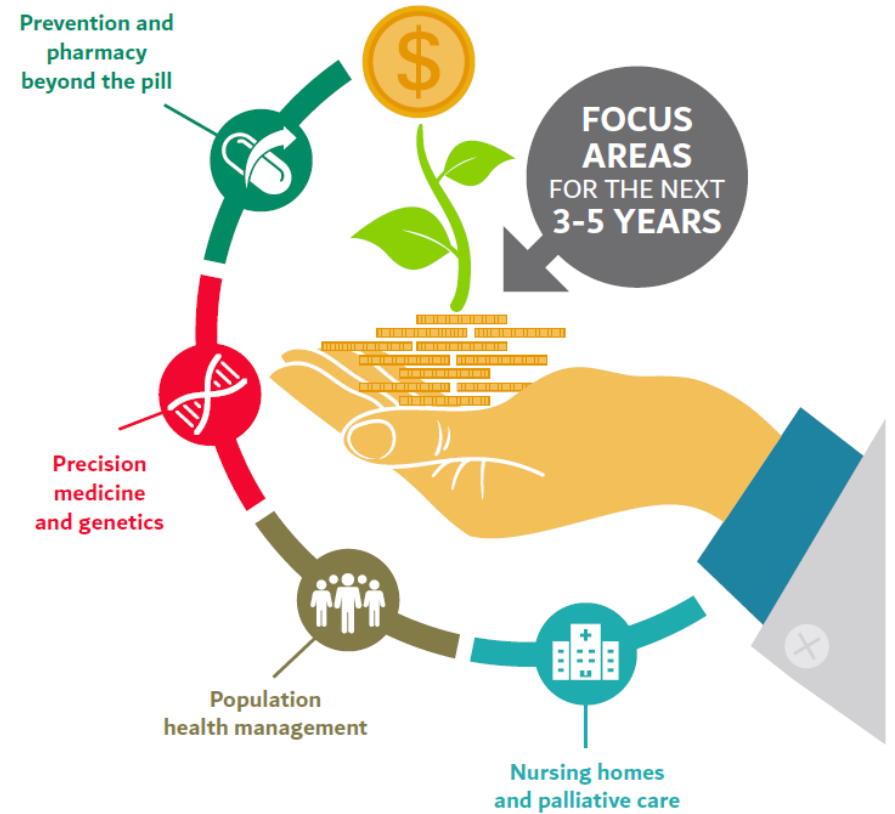

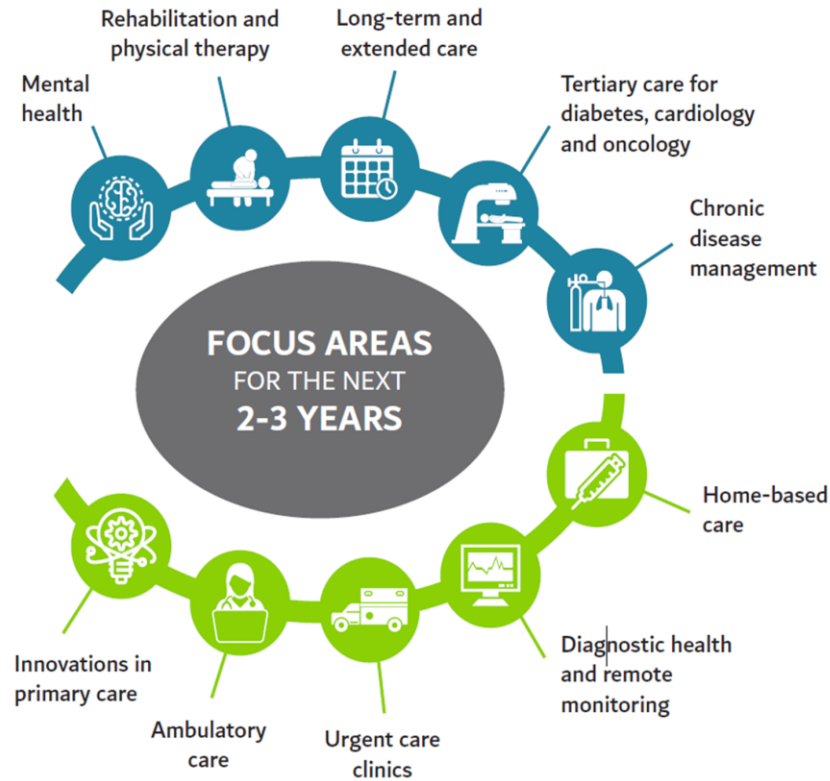

- Design and implement the Certificate of Need Guidelines in Dubai to better manage capacity and demand for health care infrastructure

Enabling Healthcare Regulation

- Review and implement regulatory changes to address major gaps in Dubai's healthcare sector, which prohibits investments

...With the focus of providing dedicated Investment Promotion and Facilitation efforts to support priority investments in Dubai
