6.3.	The health facility providing laser therapy must ensure that the laser environment and laser safety requirements comply with DHA standards and policies.				
6.3.1.	The room shall have a minimum floor area of 7.5 square meters.				
6.3.2.	Room arrangement shall permit a minimum clearance of ninety (90) centimetres at each side and at the foot of the bed.				
6.3.3.	The room entrance shall have a laser safety sign posted visibly on the door.				
6.3.4.	Protective measures need to be taken to prevent stray laser radiation from leaving the room or from reflecting and for safe laser and IPL practice. These measures include but are not limited to:				
a.	The walls of the room should be painted with a matt coloured paint.				
b.	Selected flooring surfaces shall be easy to maintain, readily cleanable and appropriately wear-resistant for the location. Wooden flooring could be used in treatment rooms. Carpets shall not be used in the treatment room.				
c.	The room shall have no metallic surfaces or mirrors.				
d.	The light used in the room must be non-reflecting.				
e.	Windows shall be kept closed and curtain used shall be made of non-reflecting materials.				
f.	Treatment couch shall be white colour or covered with white sheet.				
g.	Non-reflective instruments shall be used.				
6.4.	The health facility shall be made to accommodate people of determination.
